editor to form a motion control flowchart that can be visualized on a display. The method comprises the steps of preparing a debugging process for programming code associated with the flowchart, conducting debugging for the debugging processes, and displaying the debugging process at a plurality of levels.

Claim 56 depends from claim 55 and specifies with greater detail the nature of the levels at which the debugging processes

These features are neither disclosed nor suggested by the art. Allowance of these claims is therefore respectfully requested.
